

Dear Students

Many students describe their JEE preparation as a gruelling time with no fun. I am not one of them. I totally enjoyed the effort I put in. Of course the time when I was demotivated Rajesh Sir stepped in. Plenty of good books available today that will give you all the concepts you need. More important is a teacher who understands your situation and motivates you to give it your best shot.

Rajesh Sir ensured that I had plenty of practice inside the classroom. He made sure that each student moved at his own pace.

I will always remember Rajesh as one of the most hardworking and committed teachers.

Cheers
