

Hello,

JEE mathematics is one of the most difficult subjects to prepare for. With the tons of resources available today, students tend to get lost and it is in such situations that the need of a good teacher is felt. The teacher should help the students learn the concepts while also motivating them in their preparation.

Rajesh Sir is one of very few such teachers. He is one of the most hardworking and dedicated teacher I have seen. He was always there for solving my doubts and helping me grasp the concepts. His classes were never dull and learning was fun with him. I have no doubt that his efforts and words of motivation had a great role in my success at JEE.

With best wishes for your preparation.
